

ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY

We protect the environment, prevent pollution, and strive to minimize our negative impact on the environment.

To this end;

- We comply with legal regulations and strive to reduce our environmental impact.
- We take care to effectively separate our waste according to its source, type, and hazard class.
- We understand that using hazardous materials and chemicals only when necessary and in the required quantities reduces both their negative environmental impact and the amount of waste generated.
- We contribute to protecting nature by prioritizing materials with “recyclable” and “environmentally friendly” labels in our operations. We strive to create opportunities for reuse,
- We use single-use materials such as paper, napkins, toilet paper, and packaging only as needed to minimize waste,
- We store waste properly in separate areas according to their characteristics, deliver them to licensed/authorized companies without exceeding legal storage time limits, and keep records,
- We strive to use water, energy, and all natural resources efficiently. We share this sensitivity with our employees, guests, and suppliers.
- We measure our environmental management performance, track this data against targets, and strive to improve our performance.
- We aim to educate our employees on environmental issues and increase their awareness.
