1. About the Report

As of 2024, we have started our sustainability efforts. We aim to share the progress we have made in this direction with our management, employees, guests, suppliers and all other partners and thus increase the awareness we will create at this point and turn it into common goals and achievements.

This sustainability report includes data from May - June 2024.

2. Facility Introduction and Facility Features

Our hotel has 204 rooms and 408 bed capacity.

Our hotel has a main kitchen and a 254-seat restaurant. Open buffet breakfast is served in this restaurant.

Our restaurant is also suitable for organizing different events (engagements, weddings, group dinners, etc.).

For lunch and dinner we serve in our Leefor Cafe on the ground floor. It is open from 08.00 to 23.30 every day.

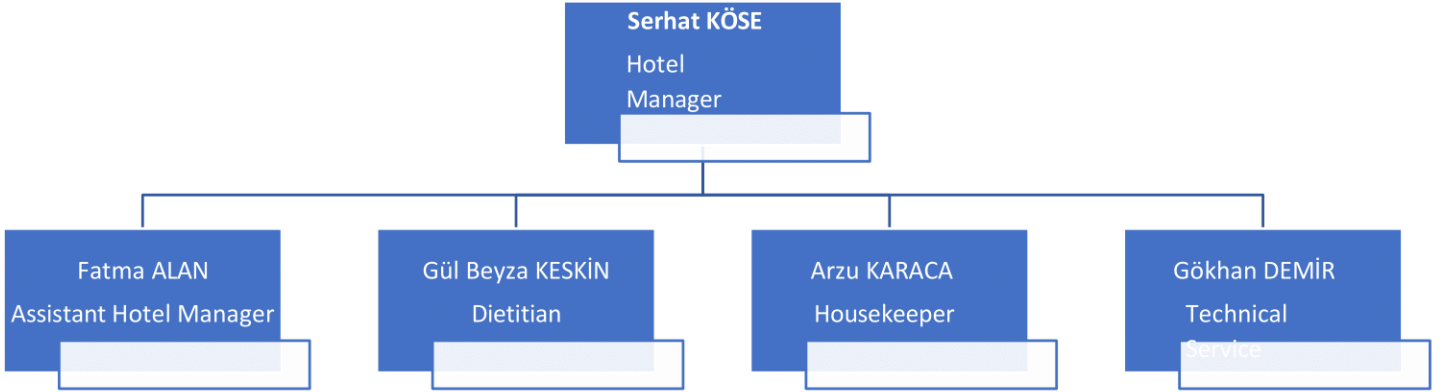

We also have a hookah cafe and patisserie section on our ground floor. These places are also open every day between 08.00 - 23.30.

For the relaxation of our guests we have a gym, steam room, Turkish bath and indoor swimming pool. We also have a playground, table tennis and air hockey machine for our little guests.

For hotel guests, we offer food service to the room.

3. Sustainability Team

4. Mitigating Environmental Impacts

In order to reduce environmental impacts, we first made an agreement with an Environmental Consultant (Eylül Madencilik) and we follow this process together.

We put different colored waste sorting bins on all floors. We store food waste and other waste separately.

We built a separate section for hazardous waste.

We installed aerators on all our faucets to reduce water consumption.

We procure cleaning and hygiene materials from Ecolab, an international company with all legal certificates. We use dosing machines.

We use refillable shampoo and soap dispensers from the same company in the rooms.

5. Personnel and Working Life

6. Social Activities

We sort our garbage We

collect plastic caps

We warn our guests and staff in writing and verbally about sustainability. We have placed garbage bins with different colors and warnings on the room floors

7. Cultural Studies

We use pictures and photographs of our region in our hotel. We sell local products in the lobby of our hotel.

Tables of our activities are presented as an annex to the report.
